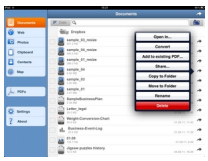
PDF PROvider

What Is PDF PROvider?

PDF PROvider is the most enhanced PDF converter, viewer, merger and manager in one pack. Create reports, research papers, material selections from different sources, offline reading packs, etc. It allows converting Word, Excel, PowerPoint, Pages, Numbers, Keynote files, HTML pages, Photos, Maps and Contacts and merging all types of documents and ready PDFs into a single PDF file. It also enables you to annotate created PDF documents, so you can add text notes, images.

You can collect several PDF documents into one or several documents of different formats into one PDF document. This allows you to be sure that your report or presentation will be viewed exactly in the way you want. It also eliminates all software related troubles – you don't need to bother that somebody needs to install lots of tools to view your documents – just Adobe PDF Reader which is completely free.



How It Works

PDF PROvider allows you to convert documents of lots of formats such as MS Word, MS Excel, MS PowerPoint, Pages, Numbers, Keynote files as well as Photos and Contacts to Adobe PDF format on the iPhone and iPad.

Once installed PDF PROvider appears in the "Open In…" list for many popular file types. So

you can convert attachments from Mail, documents opened with Safari and even official Dropbox application. You can also copy documents to PDF PROvider via USB cable using iTunes File Sharing.

Converting Web Pages

To save Web pages into PDF you can use advanced internal Web-browser. You can open, preview and convert to PDF either HTML or any other web page. This allows you to view saved pages later in the same form as they were displayed in your browser, even if you are not able to connect to the Internet by some reason. Moreover, you can save any web page to PDF and then copy it to another device using iTunes, for example to your Mac for detailed analysis. Also you can send saved pages instead of just URLs to be sure that recipient will see them just the same way as you in your browser.

PDF PROvider also supports converting web pages from any web browser using special bookmarks or URL prefixes.

Advanced PDF Processing

PDF PROvider allows reorder or delete pages in PDF documents. You can merge several documents of any supported format into single PDF document or combine several previously converted PDF documents in desired order using a special Merge dialog.

PDF PROvider enables you to view and convert Maps right from the app. This will enables you to enrich your documents with map fragments, allowing to exactly define the location mentioned in the document.

In addition to geo-illustrating the app provides the full set of annotation tools such as - text notes, markers, drawing tools, images and stamps.

With PDF PROvider you can create and annotate PDF documents of any complexity making them clear and visual for any user.

Users say:

"I've really become a fan of PDF PROvider. I did have a very good PDF creator before but it was simpler and the main reason I prefer PDF PROvider is UI. User Interface is everything to a lot of people. And we want the app to work of course. Love your app and think that every iPhone power user needs to own it – and even casual users, like myself! I'm looking at your other apps to see if I may need to buy them!"

Brenden Lozano,
Owner of Dream Photography,
Del Mar, USA

"This is a great app which is different from other 'convert to PDF' apps I have bought."

Allan Nyahoda,
Chief Operating Officer,
iMedia Brand Communication **PDF PROvider in Press:**

"Overall, PDF PROvider is an epic package. Not only is it extremely function and absolutely necessary for anyone that deals with PDF documents, but its also very appealing and easy to navigate with"

AppShrink

"If you’re looking for ease of use, straightforward document management and Dropbox integration, this is the app you’ve been searching for."
